

For All Your Calibration Needs

Repair & Cal Ltd

Taking calibration to new levels in Test & Measurement

Why use Repair & Cal Ltd?

Repair & Cal Ltd is one of the leading calibration companies in the field of calibration & repair within the UK.

As a firm commitment to quality, Repair & Cal Ltd is ISO9001:2015 approved

Repair & Cal Ltd prides itself in offering its customers the best service from the in-house calibration, carried through to the on-site calibration services offered.

Quality.

The new quality standard for calibration, ISO9001:2015 clearly addresses the electronic age. Certificates of Calibration can now be provided and stored electronically which will almost certainly eradicate storage problems for many clients. It also ensures that Repair & Cal Ltd can maintain and operate calibration databases on behalf of clients.

At present, we manage some client's total requirements, for example, storage of certificates and result sheets, sending of recall notices when instruments are due for calibration & keeping clients informed with work-in-progress reports. At any time we are able to send details of instruments if required.

- **Collection & Delivery across the UK Mainland**
- **5 Day turnaround for Calibrations**
- **On site Calibration service**
- **Recall Service**
- **Calibration management contract facility**
- **Website Portal for customers**
- **Fast track Calibration**

Calibration.

Repair & Cal Ltd offers a complete calibration service. Using semi and fully automated calibration systems we are able to calibrate a wide range of electronic test equipment.

Where your equipment falls outside our capability we use approved suppliers to manage your complete inventory.

In addition to collection & delivery, fast-turnaround & our repair service we also offer a recall service and calibration management contract facility to our clients.

On-site Calibration.

Repair & Cal Ltd offers a wide range of calibration services on customers locations.

This service can be planned around your schedule and benefits customers with reduced down time, with no risk of damage in transit. With no need to hire equipment while away for calibration, this option is very cost effective.

Instrument Repair.

The company operates a comprehensive repair facility to compliment its calibration service. As we are able to repair the majority of instruments we calibrate, we are often able to offer our customers not only a significant saving.

Equipment Sales.

Repair & Cal Ltd is now able to offer the sale of Test & Measurement Equipment by the suppliers listed.

When your test equipment is getting old, is it more cost effective to buy a new piece of equipment than to repair it?

We can help if this is the choice you wish to make.

Our sales broucher, available to view on our website, details what Test & Measurement equipment each manufacture sells.

Let our sales team look into the replacements that you would need and we can get the best prices for you.

Capabilites:

Electronics/Electrical;

Signal Generators - LF to RF
Spectrum Analyser
VXI Cards
PXI Modules
Compaq C
Amplifiers
Angle Position Indicators
Analysers - Data, Distortion, Logic, Network
Attenuators
Audio - Analyzer, Filters, Generators,Oscillators
Band Pass Filters
Capacitance Meters
Chart Recorders
Clamp Meters
Current Probes
Current Shunts
Curve Tracers
Data Testers
Decade Capacitance
Electronic Load
Flash Tester

Frequency Counters
Insulation Tester
Loop & RCD Testers
Multifunction Testers
Portable Appliance Tester
Digital Multimeters
Oscilloscopes
Power Meter
Power Supplies
Pulse Generators
Resistance Boxes

High Voltage to 30Kv
DC Current Generation to 500A

Environmental;

Temperature
Humidity
Ovens
Climate Chambers
Light Meters
Anemometers

Mechanical/Dimensional;

Vernier Calipers & Micrometer
Digital Calipers
Torque Wrenches - 1000 Nm
Scales
Force Gauges
Strain Gauges
Height Gauges
Dial Test Indicators
Depth Gauges

Collection & Delivery days

Monday: Reading, Surrey, London, Hertfordshire.

Tuesday: Reading, Cheshire, Staffordshire, Shropshire, Warwickshire.

Wednesday: Reading, Oxfordshire, Buckinghamshire, Northamptonshire.

Thursday: Reading, Dorset, Hampshire.

Friday: Reading, West Berkshire, Wiltshire, City Of Bristol, Gloucestershire.

If you cannot see your area covered on the list please get in contact and we will arrange a collection day for you.
