To all our valued customers

Due to the challenging time we are facing with the COVID-19 pandemic and following all the Government guidelines to help our employees and customers safety. We would like to inform you of recent changes we have currently implemented.

We are open for our calibration service and repair service but with limited staff due to vulnerable employees within our team.

Unfortunately we will be reducing our delivery and collection service, if you have 5 or more instruments that you require calibrating we will collect and return, however if you only have 1 or 2 instrument we require them to be shipped to us.

We are on hand to answer any questions but limited to telephone calls, however we are available by the email, addresses below.
